Geography End Points
Year 5- Migration

What I know and can explain

- I can recognise the shapes of countries and continents
- I know what push and pull factors are
- I can explain some reasons for migration to the UK
- I can use my knowledge of climate zones and weather patterns to know which parts of the world are more affected by extreme weather events
- I can name some positive and negative consequences of migration
- I can explain why there are climate refugees and give examples of forced migration in Guatemala
- I know why rural populations are decreasing and urban populations are increasing across the globe
