

## End Points

### Year 5 – Rivers & Coasts

#### What I know and can explain

- I know the water cycle and its features.
- I can represent this process of physical geography using a labelled diagram.
- I know different forms of river erosion.
- I know a range of river formations.
- I know how coasts are changed by coastal erosion.
- I can compare and contrast a range of flood defences for rivers.
- I know how humans use the resources of rivers and coasts and how this can increase the risks of flooding.
- I can collect data on a field trip
- I can take river samples
- I can present and interpret data

#### Useful vocabulary

water cycle  
evaporation  
water vapor  
condensation  
precipitation  
formation  
erosion  
floodplain

valley  
source  
stream  
oxbow lake  
meander  
basin  
bank  
delta  
mouth
