

End Points

Year 6 - Spain

What I know and can explain

- I know the climate and weather patterns in Spain
- I know how the population is dispersed in Spain
- I know push and pull factors for internal migration
- I know different settlement types and how the physical geography of Spain has influenced their development
- I can use an atlas (using 6-figure grid references) to identify major mountain ranges in Spain
- I know what Spain exports to the UK
- I know what food miles are and the positives and negatives of the global food trade
- I know how water is distributed across the world
- I know how drought has impacted Andalucía
- I know what the term desertification means and how this affects Spain.
