

Key Instant Recall Facts

Reception– Spring 2

I know one more and one less than numbers to 10

By the end of this half term, children should be able to tell you one more and one less than any number up to 10.

| The number is 2 | | |
|---|---|---|
| 1 less | The same as | 1 more |
|  |  |  |

Key Vocabulary

What is one more?

What is one less?

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Use practical resources – Your child has six cucumber pieces on their plate and you give them one more. Can they predict how many they will have now? Use a number track to find the number before and the number after.

Play games – Write the numbers 1-10 on cards, can they order them? Can they complete simple dot to dots?

If they are confident do they know one more and one less to 20?
